

# SOURCE<sup>®</sup>

## ALFALFA

SOURCE is a foliar applied soil activator that lightens your synthetic fertilizer load and offers a more cost-effective source of nitrogen, phosphorus and micronutrients by stimulating existing microbes in your soil.

### SIMPLE TO USE SOURCE DC

#### APPLICATION WINDOW

Apply once after 1st or 2nd cut

#### USE RATE

1 oz/ac - 128 ac/gal

#### TANK MIX COMPATIBLE

Mix with herbicides or fungicides

## How SOURCE works

SOURCE works in the soil to improve nutrient availability to your crops by activating a plant-to-microbe signal that stimulates nitrogen fixing bacteria and phosphate solubilizing microbes. These microbes turn atmospheric nitrogen into a plant available form and release phosphorus that is bound to minerals in your soil. The result is more macro and micronutrient availability leading to healthier, more productive plants.

## SOURCE benefits of in-season N&P

- INCREASED BIOMASS
- FASTER REGROWTH
- INCREASED FORAGE QUALITY
- MORE RESILIENT PLANTS
