

# SOURCE<sup>®</sup>

## WHEAT

SOURCE is a foliar applied soil activator that lightens your synthetic fertilizer load and offers a more cost-effective source of nitrogen, phosphorus and micronutrients by stimulating existing microbes in your soil.

### SIMPLE TO USE SOURCE XC co-pack

#### APPLICATION WINDOW

Apply between tillering and heading

#### USE RATE

**2.5 fl oz/ac total**  
(1.25 oz/ac of XC-A + 1.25 oz/ac of XC-B)

#### TANK MIX COMPATIBLE

Mix with a fungicide or herbicide pass

### How SOURCE works

SOURCE works in the soil to improve nutrient availability to your crops by activating a plant-to-microbe signal that stimulates nitrogen fixing bacteria and phosphate solubilizing microbes. These microbes turn atmospheric nitrogen into a plant available form and release phosphorus that is bound to minerals in your soil. The result is more macro and micronutrient availability leading to healthier, more productive plants.

### SOURCE benefits of in-season N&P

- INCREASED YIELD
- LARGER ROOT SYSTEMS
- IMPROVED HARVESTABILITY
